Market Performance Metrics

Metric	2025 Value	2026 Value
Avg Price (EGP)	23,302	43,985,990
Transaction Volume	11,869	59,675

Market Summary

The Cairo real estate market has experienced extreme volatility between 2022 and 2026. The massive surge in both pricing and transaction volume in 2026 suggests either hyper-inflationary pressure or a fundamental shift in the luxury real estate segment. Investors should exercise caution as the non-linear growth pattern indicates potential market instability.
